

Workshop on Cybersecurity and Privacy: Safeguarding Your Child's Online Safety

Empowering Parents to Protect Their Children in the Digital Age

9-10am ~ Friday, July 14th - Blessed Robert Widmerpool
Open to parents and guardians.

- Learn practical strategies to block sites with inappropriate content for children aged 6-11.
- Discover effective ways to manage screen time and ensure a healthy digital balance.
- Gain valuable insights on using parental control tools to safeguard your child's online activity.
- Explore methods to block chat services and protect against online predators.

- Discover the latest technologies and tools to secure your child's online privacy.
- Engage in hands-on activities and interactive discussions.
- Learn from an expert speaker and experienced professional in the field.
- Network with other parents and share experiences.

Limited seats available, so reserve your spot now!
