

British Science Week : March Whole School

The Vikings lived in an ever changing world. In winter it was cold and the land was covered in snow and ice, in summer it was much warmer and the land was green with plants. These changes would have affected how Vikings lived their lives. Think of a way to measure how hard butter is. How does the hardness change as the temperature changes? What is the difference between drying laundry in winter and in summer?

Class Mass Y3/4

# Water, Water, Everywhere! How is the Water Cycle part of our Life Cycle?
